Inventions

1. Integrated Smart School/College Transport System
2. Easy Vehicle Monitoring and Surveillance
3. Aircon System and Method with an outfit for Two-wheeler riders
4. System and method for Thermo Flask Quality Test
5. Anti-obese effect of Poly Herbal Extract in High Fat Diet
6. Cow Matrix
7. Immunomodulatory effect of a Herbal formulation Tablet
8. Standardized Herbal Tablet containing combined Extract of
9. A Potent Immunostimulant chemically separated from a Marine...
10. Preparation of analytical Tablets and Capsules for
11. Herbal Formulation for Water hyacinth extermination
12. Formulation and Evaluation of Rivastigmine Tartrate...
13. Smart cost effective Telesurgical Robot for Surgery
14. Eco-Friendly Smart cost effective Welding System
15. Optimized Wind Power System
16. Automatic Motor On / Off
17. Car EMI Gadget
18. Solar Cell based Scrolling Display
19. Design and Development of Multi-crop Thresher
20. Smart Beacon Light
21. Smart Gas Leak Detection System
22. Temperature Indicator for Vaccum Bottles and Flasks
23. Cost Effective Scanner
24. Three Way Operated Smart Wheel Chair

25. Fire Combat Bot (FCB)
26. Smart Home Electronics/Security Control System Using Android/Ios
27. Smart Home Automation System
28. Mobile Controlled Combat Vehicle
29. Conventional Oral Hearing Aid for Unilateral Hearing Loss
30. 120° Beam Steerable Antenna for UWB Communication
31. An Aqua Fuel Kit
32. Tangential Suspension System for Two Wheeler Automobiles
33. On Road Dust Extraction System
34. Design and Implementation of Water quality evaluating system using GSM
35. Self activating Aircraft Disaster Recovery System
36. Smart Energy Meter
