Inventions

1. A Potent Immunostimulant chemically separated from a Marine...
2. Preparation of analytical Tablets and Capsules for
3. Herbal Formulation for Water hyacinth extermination
4. Formulation and Evaluation of Rivastigmine Tartrate...
5. Smart cost effective Telesurgical Robot for Surgery
6. Eco-Friendly Smart cost effective Welding System
7. Optimized Wind Power System
8. Design and Development of Multi-crop Thresher
9. Smart Beacon Light
10. Smart Gas Leak Detection System
11. Temperature Indicator for Vacuum Bottles and Flasks
12. Cost Effective Scanner
13. Three Way Operated Smart Wheel Chair
14. Fire Combat Bot (FCB)
15. Smart Home Electronics/Security Control System Using Android/Ios
16. Smart Home Automation System
17. Mobile Controlled Combat Vehicle
18. Conventional Oral Hearing Aid for Unilateral Hearing Loss
19. 120° Beam Steerable Antenna for UWB Communication
20. An Aqua Fuel Kit
21. Tangential Suspension System for Two Wheeler Automobiles

22. On Road Dust Extraction System
23. Design and Implementation of Water quality evaluating system using GSM
24. Self-activating Aircraft Disaster Recovery System
25. Smart Energy Meter
26. Multi-purpose Portable Comforter
27. Compressed Air Production System for Automobiles
28. Air "O" Spring Suspension System
29. Water Level Automation
30. Combat and Fire Fighting Vehicle
31. Mobile Controlled Rescue Robot
32. ATM Auto Controller
33. Building Power Conservator
